🌐 Portfolio   in LinkedIn   ⌂ GitHub

Full-stack developer with hands-on experience in React, Node.js, and cloud technologies. Seeking an internship or entry-level role to contribute to innovative software solutions using modern development practices.

TECHNICAL SKILLS

Languages: Java, C/C++, Python, C#, JavaScript
Frontend: React, HTML, CSS, jQuery, Ajax
Backend: Node.js, Express, Java Spring Boot
Databases: MySQL, MongoDB, MS SQL Server
DevOps & Tools: Docker, Kubernetes, Jenkins, GitHub Actions, Git
AI/ML: Neural Networks, Supervised & Unsupervised Learning, Generative AI

EDUCATION

FAST - National University of Computer and Emerging Sciences   2022 − 2026
Bachelor of Science in Software Engineering (7th Semester)   *CGPA: 3.05/4.0*

PROFESSIONAL EXPERIENCE

Web Development Intern   **Jul 2025 − Aug 2025**
Enabling Systems, Rawalpindi

- Developed full-stack web applications using Node.js, Express.js, MongoDB, MySQL, and React.js with RESTful API integration.

Software Developer Intern   **Jun 2024 − Jul 2024**
I-ENG Group, Islamabad

- Built microservices architecture components using Java Spring Boot; gained experience in enterprise application development.

PROJECTS

SafeDrive-AI − Final Year Project   React Native, Python, OpenCV, Firebase, ML

- Developed AI-powered mobile app for real-time driver drowsiness detection using computer vision, featuring multimodal alerts, GPS-based emergency notifications, voice chatbot, and analytics dashboard.

RealTalk Chat Application   MySQL, React, Node.js, Express, WebSockets

- Built a secure real-time chat app with JWT authentication, private/group messaging, file sharing, and online status tracking with responsive UI.

Web Application Deployment   Docker, Kubernetes, Minikube, GitHub Actions

- Deployed MERN app to Kubernetes cluster using Minikube with containerized Docker images and automated CI/CD via GitHub Actions with self-hosted runner.

Property Management System   MERN Stack, Redux, Zustand

- Developed admin dashboard with React hooks, state management (Zustand/Redux), and reusable component architecture for property management.

Movie Recommendation System   Node.js, Express, MongoDB

- Engineered RESTful backend with user authentication, movie/actor database management, and discussion forums for community interaction.

Auto Parts E-Commerce Platform   Java Spring Boot, HTML/CSS, REST APIs

- Designed and implemented full-stack auto shop application with robust REST API backend and responsive frontend interface.
